Target and Field: 93 Reatta Rd, Trevallyn Reserve, Launceston, Tasmania

- 14/7/16 – Michael Ferguson's office advised they will enquire into delays with Hon Matthew Groom MP. Followed up 11/8/2016.
- 28/9/16 – Meeting with [Anna Povey](#) for Botanical Study. Did initial inspection but may need to follow up. **Ongoing.....**

After this we can start looking at the West Tamar Council's building approval process and fund raising.

New Signage

The club is getting, what seems, an increasing number of non-members using the range during the week. The existing "No unauthorised shooting" signs don't seem to deter them. Adam Smith (Park Ranger) advised that park rangers were authorised to confiscate hunting equipment on Crown land and would monitor the range.

On club house, front gate and shooting line shelter.

New FastGo target butt showing broadhead holes.

Club Meeting

Club General Meeting 3/9/16

Treasurer reports total club accounts allowing for current expenses = approx \$55k.

Instructor's Course for 15 Oct has 8 people so far enrolled.

Indoor venue- Anna Povey will be doing Botanical Survey soon. Jeff contacted Michael Ferguson 14/7, followed up on 11/8.

Past (approx 10 yrs ago) member seeking membership- decided to waive beginner's course but allow application after 8 Come n Try visits.

Discussed a suggestion for a rental-gear programme for Beginners course students until they can purchase their own gear. Decided against as no one willing to run it and the expense of purchasing dedicated equipment.

With the new online payment setup, pensioner/volunteer discounts will henceforth be given as refunds after payment of full membership fees.

Tournament names- the word 'Paringa' will be added to 'Northern' events to distinguish between various other 'Northern' events around the country on the AA calendar.

New Ozbow programme- shooters will be given a sheet which will remain at the clubhouse onto which achievement stickers will be affixed. AST will supply initial batch of sheets/stickers free for first year of implementation.

Future meetings will begin at 12:30, for start of club shooting at 1:00.

Next club meeting: 1pm Sat 12th Nov 2016

Organiser: President

Working Bees

Looks like there has been some activity from the wheel makers (Tim and Mal). With another lot of butts being made mobile this month.

Thanks also to Shayne, for cleaning up and mowed the range for the Northern Championships

Next working bee may be coordinated with the [Friends of Trevallyn Reserve](#) to identify and remove non-native vegetation and weed species.

Next Working Bee: To be arranged
Organiser: All members

Groups

This month saw 6 groups (Newstead College, Scotch Oakburn, 2 x birthday parties and Newstead Christian School) with 76 students at Paringa.

Do you know of a group that would love to have a go at archery (schools, corporate, birthdays etc)?
Organiser: Jeff Garner - m: 0411 878 658

Come N Try

Good numbers when the sun shone but we had a couple of rained out Saturdays.

C&T Teams

Team 1

Wally Morphett
Shirley Morphett
Richard Barnes
Tim Smallbon

Team 3

Brian Swinton
James Barker
?

Team 2

Andrew Fluck
Corrie van Barneveldt
Simon Timmens

Team 4

Rolfe de la Motte
Geoff Dyer
Nick Heywood

Backups:

Jeff Garner, Caitlin Street

Thanks to these members for offering their time. A few volunteers still needed (we'd like to have 4 in each group). If you can spare one morning every four weeks please contact Rolfe on 0409 686 911 or rolfe.delamotte@gmail.com

Tahlia Dmytruk

Please make our new members feel welcome when you see them around the club.

Member Coaching

Recurve Bow Set Up

It is very important no matter what tuning method you use, that the bow is set-up correctly with all accessories and components correctly installed.

In detailing any tuning method the assumption is that the bow has been set up correctly, for example :

- Ensure the correct string length is being used, this ensures the correct amount of string is sitting around the recurve on each limb and the brace height is within manufacturers specifications.
- If the bow has adjustable tiller/bow weight set the bow weight to mid location and set the tiller, making the top tiller about 1/8" (4mm) greater than the bottom tiller.
- Attach nocking points to the string (top and bottom), ensure you can easily adjust the nocking points during the tuning process. Initially set the nocking point

Paringa Archery Club Newsletter

Target and Field: 93 Reatta Rd, Trevallyn Reserve, Launceston, Tasmania

about 1/8" (4mm) above square, the difference of the limb tiller. That is to say the bottom of the nock is positioned 1.8" (4mm) above square.

- If the bow has the ability to make side to side adjustments with the limbs you need to ensure the limbs have been aligned. The limbs should be aligned and set up with the string running centrally down the limbs and the riser. The rise should be square to the string and not twisted off to one side.

For consistency you should be using a bow sight and clicker.

Keep an eye on the [club calendar](#) for the Saturday afternoons when the Club coach will be at Paringa.

All smiles as Paul arrives with his longbow.

Nick shoots his compound and two people have to pull it out. **Note to Judge. Check Nicks bow poundage.**

The Final Say

Congratulations to Daniel Youd who got married on Saturday 15th October 2016.

'A great marriage is not when the "perfect couple" comes together. It is when an imperfect couple learns to enjoy their differences.' Dave Meurer.

Or as the French would say "Vive la différence".

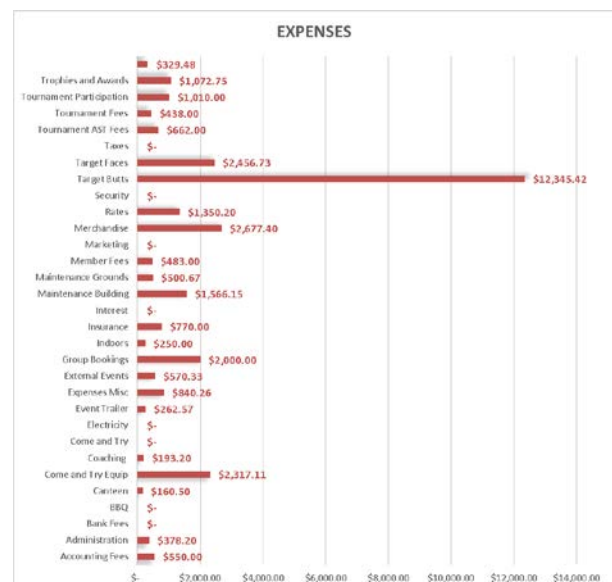

End of Year Unaudited Accounts

Time to close the books and get ready for the clubs new financial year. Below are the unaudited accounts for the club as at 31/10/2016. Saving for the Indoor Project is going well with Come N Try,

Groups and External Events bringing good income for the year.
