Longbow Shoot

Saturday 20th April 2019

Once again, the weather favoured us, and we had 6 archers to compete. We did have 8, however the president retired, injured, before a shot was fired, and Dean had to take him home. We look forward to seeing him at the next meet.

The usual hilarity was in full swing and Barry, Brian and Jeff managed to keep the rest entertained.

We did wonder about keeping the Longbow Shoot going through the winter, but most thought it would be good. If the weather is bad, we will go indoors and change the size of the faces for the 3 ranges. I thought that was a good idea by PK.

25 metres	122
18 metres	50
10 metres	25

This is still a plan in the making, until we road test it.

Today's scores were:-

Richard Barnes	433
Wal Morphett	413
Brian Swinton	402
Barrie Peer	392
Jeff Garner	352
Andrew Fluck	287

The next Longbow Shoot will be on Saturday 25th May - 12.30 pm practice - Shoot at 1.00 pm.

The round shot was a club 30/540 (18 arrows at 30m, 18 arrows at 25m, 18 arrows at 20m)

Barrie, Richard, Jeff, Wal, Andrew and Brian

Thanks to Barrie Peers, who did some remedial work after the heavy rains in April, to redirect water from the car park which had flooded the back one metre of the club house.

Sausage Sizzle

There will be a club sausage sizzle at 12:15pm Saturday 4th May 2019 in

the Indoors.

The sausage sizzle will be accompanied by a discussion on the Open Day and the club's Come N Try format.

If you can't make the sausage sizzle, please email me rogeremery@bigpond.com with any comments you may have, so we can include them in the discussions.

Regards, Roger Emery - President

And this is why we don't have nice things"

Do you think these contribute to increased target fees? Why shoot out a \$60 replaceable centre when you can shoot out a \$600 target butt!

Note:

Remember that broadhead arrows are not allowed in the indoor range. A broadhead mark has been found in the stramit wall behind the targets

The **Formaster** training aid is a much miss understood device. Most people think it's supposed to force your body into the correct form for archery. This is not correct. The Formaster is a device you can use to get feedback on your archery form and help correct it.

We want correct archery form so that we are in the best position to handle the forces archery places on our upper body. This is not about being an Olympic archer but all about being able to shoot for many years without injury or discomfort. Rotator cuff, tendonitis and carpal tunnel syndrome are all injuries that can be associated with bad archery form.

Feedback with the **Formaster** comes from shooting an arrow while the device is attached to the bow. Correct form will have the arrow leave the bow in a straight line

and land a few meters in front of the bow while the archer maintains their form.

If the arrow goes right/left or your bow arm elbow goes forward, then these are indicators of bad form or technique. With finger tabs you can have good form but still have a bad release causing a bad shot. You could also have incorrect bow hand pressure causing the bow to twist when you release.

It's not always one thing and informed feedback from a coach can go a long way to understanding what you need to work on.

For a simple explanation on back tension and form have a look at this [YouTube video](#).

Paringa Archers recommends you do not buy equipment off eBay, similar sites or Sports Stores, as bows need to be matched to the archer and arrows need to be matched to the bow.

Looking for that special gift?
Look no further!

Yes, the **Paringa Gift Card** says it all.

See Shirley at the club of a Saturday morning and secure one (bargain price of \$15) or more for that special someone.
