### **Clint Freeman goes well**

Clint has ranked 20th in the Compound Individual Men, losing the 1/8 Elimination Match #4 on Oct 5 to Welshman Owen Kalmaru (173 to Clint's 170). The Australian compound men's team (Patrick Coghlan, Clint Freeman & Robert Timms) did very well, getting to the Bronze medal match against South Africa. Many will have heard about the timing problems encountered, and how the team members considered an appeal which could have ruled out one of the opposing team's arrows. At this level, such an outcome would have been worth 9 or 10 points – and the South Africans won by only two points (234 to Australia's 232). However, the appeal was only contemplated, not registered because the officials felt the South Africans were actually more disadvantaged through the problem.

At Yamuna sports complex the men's recurve team final match result on Friday 8 Oct gave Australia (Matthew Gray, Matthew Masonwells & Taylor Worth with 219) a win over Malaysia (212). Gold for Australia!

### **The iCub robot learns archery**

Photo: Dr. Petar Kormushev

Humanoid robot iCub learns the skill of archery. The learning algorithm, called ARCHER (Augmented Reward Chained Regression) algorithm, was developed and optimized specifically for problems like the archery training. After being taught how to hold a bow and shoot an arrow, it learned for itself how to improve its aim, and was so successful it could hit a bullseye after 8 trials. The iCub robot is an open-source robotic platform about the same size as a child three and a half years old, or around 104 cm tall.

Thanks Jeff Garner for this snippet!

### **New QRE choice**

Archery Australia has changed QRE rounds for open recurve and compound archers to a choice of:

- 72 arrows at 70 metres, 122 cm face (FITA 720 @ 70m)
- 72 arrows at 50 metres, 80 cm face (FITA 720 @ 50m)
- 36 arrows at 70 metres plus 36 arrows at 50 metres taken from either a 144 arrow FITA 90 metre or FITA 70 metre round

The number of arrows per end can be either 3 or 6 at the discretion of the organising body (AA, RGB or club).

Monday, March 7, 1966—

MAID MARION added a touch of glamor to the legends of Robin Hood, just as 19-year-old Pam Proctor, of Deepdene, a member of the Kew City bowmen team, added some extra beauty to Como Park for the Moomba archery championships. She was one of 150 entrants.

Thanks to John McKenzie for this cutting. Note the shield decorating the ground quiver – a Club emblem.

### Special Motion

At the Club Meeting on 8<sup>th</sup> October we voted on the following motion (proposed by Mark Ansell, seconded by Paul Fahey):

**Members of Paringa Archers will have priority in the far lane (targets 15 & 16) on Saturday mornings during the public Come & Try session.**

After the discussion, including postal and absentee votes, the motion was LOST (9 votes against, 5 votes in favour).

This means the status quo remains: Club Members may be asked to step back during Come & Try sessions when public demand is very great. It is

anticipated the movement of the flagstones to provide three stances per target will ameliorate demand.

### Footwear

Club members are reminded that open-toed footwear is not suitable for the range because of the danger to life if you stub yourself on a broken carbon-fibre shaft.

### BCE butts

The two new BCE foam plastic butts have arrived. We hope to place them on the range during the Working Bee, Saturday afternoon 16<sup>th</sup> October.

### Monthly Medal
